THE REGENTS' QUESTIONS.

Since 1866 the Regents of the State of New York have held examinations three times a year in all the Academies and Academic Departments of the Union Schools, granting certificates to such pupils as pass satisfactorily, and apportioning upon these certificates a large sum of money among the schools of the State. As pupils begin the study of the higher branches after passing this examination, the questions are made to embrace all that is *practical* in the above branches. In all these 9,000 questions not a single *unimportant* or "catch" question can be found. They are now used as text-books in many of the leading schools of the country. Cornell University, and most other colleges, recognizing their practical character, now admit, without any further examination upon these subjects, pupils who have passed an examination upon these questions. Students must pass these examinations before they are admitted to Teachers' Classes in Academies, and by the new rules of the New York Court of Appeals, applicants for examination or for clerkship, shall, if not college graduates, first pass one of these examinations.

honor of the (10) *whole* (11) *country*, and the (12) *preservation* of (13) *our* (14) *Federal* (15) *Union*. It is to that Union we (16) *owe* our (17) *safety* at (18) *home*, and our (19) *consideration* and (20) *dignity* (21) *abroad*; to that Union we are (22) *chiefly* (23) *indebted* for (24) *whatever* (25) *makes* us (26) *proud* of our country. That Union we (27) *reached* (28) *only* by the (29) *discipline* of our (30) *virtues* in the (31) *severe* (32) *school* of (33) *adversity*. It has had its (34) *origin* in the (35) *necessities* of (36) *disordered* (37) *finance*, (38) *prostrate* (39) *commerce*, and (40) *ruined* (41) *credit*. Under its (42) *benign* (43) *influence* (44) *these* (45) *great* (46) *interests* (47) *immediately* (48) *awoke*, as from the (49) *dead*, and (50) *sprang* (51) *forth* with (52) *newness* of life. (53) *Every* (54) *year* of its (55) *duration* has (56) *teemed* with (57) *fresh* (58) *proofs* of its (59) *utility* and its (60) *blessings*; and (61) *although* our (62) *territory* has (63) *stretched* (64) *out* (65) *wider* and wider, and our (66) *population* (67) *spread* (68) *farther* and farther, (69) *they* have not (70) *outrun* its (71) *protection* or its (72) *benefits*. It has (73) *been* to us (74) *all* a (75) *copious* (76) *fountain* of (77) *national*, (78) *social*, (79) *personal* (80) *happiness*.

* * I have not (81) *accustomed* (82) *myself* to (83) *hang* over the (84) *precipice* of disunion, to (85) *see* (86) *whether*, with my short (87) *sight*, I can (88) *fathom* the (89) *depth* of the (90) *abyss* (91) *below*; nor (92) *could* I regard him as a safe (93) *counselor* in the (94) *affairs* of his (95) *government*, whose (96) *thoughts* should be (97) *mainly* bent on (98) *considering*, not how the Union should be best (99) *preserved* but how tolerable might be the condition of the people when it shall be broken up and (100) *destroyed*.

Examination XVII. Feb. 28, 1872.

(11:00 A. M.—12:00 M.)

The (1) *great* (2) *object* of all (3) *knowledge* is to enlarge

and purify the (4) *soul*, to fill the mind with (5) *noble* contemplations, and to furnish a refined (6) *pleasure*. (7) *Considering* this as the ultimate end of (8) *science*, no branch of it can surely (9) *claim* (10) *precedence* of (11) *astronomy*. * * *

Much, however, as we are (12) *indebted* to our (13) *observations* for (14) *elevating* our (15) *conceptions* of the (16) *heavenly* (17) *bodies*, they present even to the (18) *unaided* (19) *sight* (20) *scenes* of glory, which words are (21) *too* (22) *feeble* to (23) *describe*. I had (24) *occasion*, a few weeks since, to take the (25) *early* (26) *train* from (27) *Providence* to (28) *Boston*; and for this (29) *purpose* rose at (30) *two* o'clock in the morning. * * * It was a mild, (31) *serene*, midsummer's (32) *night*,—the sky was without a (33) *cloud*—the winds were (34) *whist*. The moon, then in the last (35) *quarter*, had just (36) *risen*, and the stars shone with a spectral (37) *lustre*, but (38) *little* (39) *affected* by her (40) *presence*. (41) *Jupiter*, two (42) *hours* high, was the herald of the day; the Pleiades just above the (43) *horizon* shed (4) *their* sweet (45) *influence* in the east; Lyra (46) *sparkled* (47) *near* the Zenith; Andromeda (48) *veiled* her newly (49) *discovered* (50) *glories* * * * in the (51) *south*; the (52) *steady* (53) *pointers* far beneath the pole looked meekly up from the (54) *depths* of the north to their (55) *sovereign*.

Such was the glorious (56) *spectacle* as I entered the train. As we (57) *proceeded*, the timid (58) *approach* of (59) *twilight* became more (60) *perceptible*; the (61) *intense* (62) *blue* of the sky began to (63) *soften*; the (64) *smaller* stars, like little (65) *children*, went first to rest, the sister-beams of the (66) *Pleiades* soon melted together; but the (67) *bright* (68) *constellations* of the west and north (69) *remained* unchanged. Steadily the (70) *wondrous transfiguration* went on. * * * The blue sky now

turned more softly (71) *gray*; the great watch stars shut up their holy eyes; the east began to (72) *kindle*. Faint (73) *streaks* of (74) *purple* soon blushed along the sky; the (75) *whole* (76) *celestial* (77) *concave* was filled with the inflowing tides of the morning light, which came (78) *pouring* down from above in one great (79) *ocean* of (80) *radiance*. * * * In a few (81) *seconds*, the everlasting gates of the morning were (82) *thrown* wide open, and the Lord of day, (83) *arrayed* in glories too (84) *severe* for the gaze of man, began his state.

I do not (85) *wonder* at the (86) *superstition* of the (87) *ancient* Magians, who in the morning of the world went up to the hill tops of Central (88) *Asia*, and, ignorant of the (89) *true* God, adored the most glorious work of his hand; but I am filled with (90) *amazement*, when I am told that in this (91) *enlightened* age, and in the (92) *heart* of the (93) *Christian* world, (94) *there* are (95) *persons* who can (96) *witness* this (97) *daily* (98) *manifestation* of the (99) *power* and wisdom of the (100) *Creator*, and yet say in their hearts, "There is no God."

PATIENCE—SPURGEON.

(1) *Patience* is (2) *better* than wisdom; an (3) *ounce* of patience is worth a pound of (4) *brains*. All men (5) *praise* patience, but few (6) *enough* can practice it; it is a (7) *medicine* which is good for all (8) *diseases*, and therefore every old woman (9) *recommends* it; but it is not every garden that grows the (10) *herbs* to make it with. When one's flesh and bones are full of (11) *aches* and (12)

SPELLING.

pains, it is as (13) *natural* for us to (14) *murmur* as for a horse to shake his head when the (15) *flies* (16) *tease* him, or a wheel to (17) *rattle* when the spoke is loose; but nature should not be the rule with (18) *Christians*, or what is their (19) *religion* worth? If a (20) *soldier* fights no better than a ploughboy, (21) *off* with his red (22) *coat*. We (23) *expect* more (24) *fruit* from an (25) *apple-tree*, than from a (26) *thorn*, and we have a (27) *right* to do so. The (28) *disciples* of a patient (29) *Saviour* (30) *should* be patient (31) *themselves*. Grieve and (32) *bear* it, is the (33) *old-fashioned* (34) *advice*, but sing and bear it is a (35) *great* (36) *deal* better. After all, we get (37) *very* few cuts of the (38) *whip* (39) *considering* what bad (40) *cattle* we are, and when we do smart a little, it is (41) *soon* over. Pain past is (42) *pleasure*, and (43) *experience* comes by it. We (44) *ought* not to be (45) *afraid* of going down into (46) *Egypt* when we know we shall come out of it with (47) *jewels* of silver and gold.

Impatient (48) *people* water their (49) *miseries*, and (50) *hoe* up their (51) *comforts*; (52) *sorrows* are (53) *visitors* that come without (54) *invitation*, but (55) *complaining* minds send a (56) *wagon* to bring (57) *troubles* home in. (58) *Many* people are born (59) *crying*, live complaining and (60) *die* (61) *disappointed*; they (62) *chew* the (63) *bitter* pill which they (64) *would* not even know to be bitter if they had the (65) *sense* to (66) *swallow* it (67) *whole* in a cup of patience and water. They think every other man's (68) *burden* to be (69) *light*, and their own (70) *feathers* to be (71) *heavy* as (72) *lead*; they are hardly done by in their own (73) *opinion*; no one's (74) *toes* are so often (75) *trodden* on as (76) *theirs*; the snow falls (77) *thickest* round their (78) *door*, and the hail (79) *rattles* hardest on their (80) *windows*; and yet if the truth were (81) *known*, it is their (82) *fancy* rather than their *fate*

which makes things go so hard with them. A little sprig of the herb called (83) *content* put into the (84) *poorest* (85) *soup* will make it taste as rich as the Lord Mayor's (86) *turtle*. John (87) *Ploughman* (88) *grows* the plant in his garden, but the late hard winter (89) *nipped* it (90) *terribly*, so that he cannot (91) *afford* to give his (92) *neighbors* a slip of it; they had better (93) *follow* (94) *Matthew*, xxv, 9, and go to those who sell and (95) *buy* for themselves. (96) *Grace* is a good (97) *soil* to grow it in, but it wants (98) *watering* from the (99) *fountain* of (100) *mercy*.

(1) *Once* upon a (2) *midnight* (3) *dreary*, (4) *while* I (5) *pondered*, (6) *weak* and (7) *weary*,

Over (8) *many* a (9) *quaint* and (10) *curious* (11) *volume* of (12) *forgotten* (13) *lore*,—

While I (14) *nodded*, (15) *nearly* (16) *napping*, (17) *suddenly* (18) there came a (19) *tapping*,

THE REGENTS' QUESTIONS.

As of some (20) *one* (21) *gently* (22) *rapping*, rapping at
my (23) *chamber* (24) *door*;

“’Tis some (25) *visitor*,” I (26) *muttered*, “tapping at my
chamber door,—

Only this, and (27) *nothing* more.”

Ah! (28) *distinctly* I (29) *remember*, it was in the (30) *bleak*
(31) *December*,

And (32) *each* (33) *separate* (34) *dying* (35) *ember* (36)
wrought its (37) *ghost* upon the (38) *floor*.

(39) *Eagerly* I (40) *wished* the (41) *morrow*; (42) *vainly* I
had (43) *sought* to (44) *borrow*,

From my (45) *books*, surcease of (46) *sorrow*,—sorrow for
the (47) *lost* Lenore,—

For the (48) *rare* and (49) *radiant* (50) *maiden* (51) *whom*
the (52) *angels* name Lenore,—

(53) *Nameless* (54) *here* (55) *forevermore*.

(56) *Back* into the chamber (57) *turning*, (58) *all* my (59)
soul within me (60) *burning*,

(61) *Soon* (62) *again* I (63) *heard* a tapping, (64) *something*
(65) *louder* than (66) *before*;

(67) “*Surely*” (68) *said* I,—“surely that is something at
my (69) *window* (70) *lattice*;

Let me (71) *see* then, (72) *what* thereat *is*, and this (73)
mystery (74) *explore*,—

Let my (75) *heart* be (76) *still* a (77) *moment*, and this
mystery explore;—

’Tis the (78) *wind*, and nothing more.’

Open here I (79) *flung* the (80) *shutter*, (81) *when*, with
many a (82) *flirt* and (83) *flutter*,

In there (84) *stepped* a (85) *stately* (86) *raven* of the (87)
saintly (88) *days* of (89) *yore*.

Not the (90) *least* (91) *obeisance* made he; not a (92)
minute (93) *stopped* or (94) *staid* he;

SPELLING.

But with (95) *mien* of (96) *lord* or (97) *lady*, (98) *perched* above my chamber door;—

Perched upon a (99) *bust* of Pallas, (100) *just* above my chamber door,—

Perched and sat, and nothing more.

Examination XXI. June 6, 1873.

(11:00 A. M.—12 M.)

EXERCISE.

(1) *When*, in the (2) *course* of (3) *human* (4) *events*, it (5) *becomes* (6) *necessary* for (7) *one* (8) *people* to (9) *dissolve* the (10) *political* (11) *bands* which have (12) *connected* them with (13) *another*, and to (14) *assume*, (15) *among* the (16) *powers* of the (17) *earth*, the (18) *separate* and (19) *equal* (20) *station* to which the (21) *laws* of (22) *nature* and of nature's God (23) *entitle* them, a (24) *decent* (25) *respect* to the (26) *opinions* of mankind (27) *requires* that they (28) *should* (29) *declare* the causes which (30) *impel* them to the (31) *separation*.

We hold (32) *these* (33) *truths* to be (34) *self-evident*, that all men are (35) *created* equal; that they are (36) *endowed* by (37) *their* (38) *Creator* with (39) *certain* (40) *unalienable* (41) *rights*; that (42) *among* these are life, liberty and the (43) *pursuit* of (44) *happiness*. That to (45) *secure* these rights, (46) *governments* are (47) *instituted* among men, (48) *deriving* their just (49) *powers* from the (50) *consent* of the (51) *governed*; that whatever any form of government becomes (52) *destructive* of these ends, it is the right of the people to (53) *alter* or to (54) *abolish* it, and to institute a (55) *new* government, (56) *laying* its (57) *foundation* on such (58) *principles*, and (59) *organizing* its powers in such form, as to them shall (60) *seem* most (61) *likely* to

THE REGENTS QUESTIONS.

(62) *effect* their (63) *safety* and happiness. (64) *Prudence*, (65) *indeed*, will (66) *dictate* that governments long established, (67) *should* not be (68) *changed* for (69) *light* and (70) *transient* causes; and (71) *accordingly*, all (72) *experience* hath (73) *shown*, that mankind are more (74) *disposed* to suffer, while (75) *evils* are (76) *sufferable*, than to right (77) *themselves* by (78) *abolishing* the forms to which they are (79) *accustomed*. But when a long (80) *train* of (81) *abuses* and (82) *usurpations*, (83) *pursuing* (84) *invariably* the same (85) *object*, (86) *evinces* a (87) *design* to (88) *reduce* them under (89) *absolute* (90) *despotism*, it is their right, it is their duty, to (91) *throw* (92) *off* such government, and to (93) *provide* new (94) *guards* for their (95) *future* (96) *security*. Such has been the (97) *patient* (98) *sufferance* of these (99) *colonies*, and such is now the necessity which (100) *constrains* them to alter their former system of government.

Examination XXII. Nov. 7, 1873.

(11:00 A. M.—12:00 M.)

EXERCISE—FABLE OF THE ANT AND THE GRASSHOPPER.

In the (1) *winter* (2) *season*, a (3) *commonwealth* of (4) *Ants* was (5) *busily* (6) *employed* in the (7) *management* and (8) *preservation* of (9) *their* (10) *corn*, which (11) *they* (12) *exposed* to the (13) *air* in (14) *heaps* (15) *about* the (16) *avenues* of their (17) *little* (18) *country* (19) *habitation*. A (20) *grasshopper* who had (21) *chanced* to (22) *outlive* the (23) *summer*, and was (24) *ready* to starve with cold and (25) *hunger*, (26) *approached* them with (27) *great* (28) *humility*, and (29) *begged* that (30) *they* (31) *would* (32) *relieve* his (33) *necessity* with (34) *one* (35) *grain* of (36) *wheat* or (37) *rye*. One of the Ants (38) *asked* him, how

SPELLING.

ne had (39) *disposed* of his time in summer, that he had not taken (40) *pains* and (41) *laid* in a (42) *stock* as they had (43) *done*. (44) "*Alas*, (45) *gentlemen*," (46) *says* he, "I (47) *passed* away the time (48) *merrily* and (49) *pleasantly* in (50) *drinking*, (51) *singing*, (52) *dancing*, and (53) *never* (54) *once* (55) *thought* of winter." "If that be the case," (56) *replied* the ant, (57) *laughing*, (58) "*all* I have to say, is, that they who drink, sing and dance in summer, must starve in winter."

MORAL.

As summer is the season of the (59) *year* in which the (60) *husbandman* (61) *gathers* such (62) *fruits* as may (63) *supply* his (64) *necessities* in winter, so (65) *youth* and (66) *manhood* (67) *should* be (68) *chiefly* (69) *occupied* in (70) *providing* such (71) *necessaries* as may (72) *suffice* for the (73) *craving* (74) *demands* of (75) *helpless* old age. Yet (76) *many* of (77) *those* (78) *whom* we call (79) *rational* (80) *creatures* live in (81) *quite* the (82) *opposite* (83) *way*, (84) *making* it their (85) *business* to (86) *squander* whatever they may have (87) *acquired*; as if the (88) *feebleness* of age would (89) *need* no (90) *supplies* to (91) *support* it; or, at (92) *least*, would have them (93) *furnished* in (94) *some* (95) *miraculous* (96) *manner*.

From this fable we (97) *learn* this (98) *lesson*, never to lose any (99) *opportunity* of providing against the future evils and (100) *accidents* of life.

Examination XXIII. Feb. 27, 1874.

(3:15 A. M.—4:15 M.)

EXERCISE.

(1) *Daniel* (2) *Webster* was (3) *great* in all the (4) *elements* of his (5) *character*: great in (6) *original* (7)

THE REGENTS' QUESTIONS.

mental (8) *strength*; great in (9) *varied* and *vast* (10) *acquirements*; great in (11) *quick* and (12) *keen* (13) *perception*; great in (14) *subtle*, (15) *logical* (16) *discrimination*; great in (17) *force* of (18) *thought*; great in (19) *power* of (20) *intense* and (21) *rigid* (22) *analysis*; great in rare and (23) *beautiful* (24) *combination* of (25) *talents*; great in (26) *ability* to (27) *command* his powers; great in (28) *range* and (29) *acuteness* of (30) *vision*, for he (31) *could* (32) *see* like a (33) *prophet*. (34) *Hence* his (35) *decision* of character; his bold, (36) *manly*, (37) *independent* though; his (38) *whole* (39) *sovereign* ty of mind.

No man (40) *probably* ever lived, who could (41) *calculate*, with such (42) *mathematical* (43) *certainty*, the (44) *separate* (45) *effect* of (46) *human* (47) *actions*, or the (48) *intricate*, (49) *combined*, and (50) *complicated* (51) *influence* of (52) *every* (53) *movement*, (54) *social*, (55) *political* or (56) *personal*. He could (57) *define* and (58) *determine* the (59) *very* (60) *destiny* of influence. This is the (61) *key* to the (62) *problem* of his (63) *greatness*, an (64) *explanation* of the (65) *miracle* of his power. We are (66) *proud* of his greatness, (67) *because* it is (68) *American*, (69) *wholly* American! The very (70) *impulses* of his (71) *heart* were American.

The (72) *spirit* of American (73) *institutions* had (74) *infused* itself into his life--had (75) *become* a part of his being. He was proud of his (76) *country*; proud of her (77) *commerce*; her art and (78) *science*; her (79) *wealth*, (80) *resources* and labor; and all in turn were proud of him. His (81) *patriotism* was not (82) *bounded* by the (83) *narrow* (84) *limits* of (85) *sectional* (86) *interest* nor (87) *hemmed* in by state lines, nor (88) *regulated* by local (89) *policy*. It was as (90) *broad* as his country. He (91) *knew* a North and a (92) *South*, an East and a West; but he knew them only as one—"One and (93) *inseparable*!"

SPELLING.

As a (94) *forsenic* (95) *orator*, I know of no age which can boast his (96) *superior*. He united the boldness and energy of the (97) *Grecian*, and the (98) *grandeur* and strength of the Roman, to an original (99) *simplicity* which neither Grecian nor Roman (100) *possessed*.

Examination XLI Feb. 26, 1880.

(3:15-4:15 P. M.)

The (1) only hope of (2) salvation for the (3) Greek (4) empire and the (5) adjacent (6) kingdoms, (7) would have (8) been (9) some (10) more (11) powerful (12) weapon, some (13) discovery in the art of (14) war, that should (15) give them a (16) decisive (17) superiority (18) over (19) their (20) Turkish (21) foes. The (22) chemists of (23) China or (24) Europe had (25) found, by (26) casual or (27) elaborate (28) experiments, that a (29) mixture of (30) saltpetre, (31) sulphur, and (32) charcoal (33) produces, with a (34) spark of fire, a (35) tremendous (36) explosion. It was (37) soon (38) observed, that if the (39) expansive (40) force were (41) compressed in a (42) strong (43) tube, a ball of (44) stone or (45) iron (46) might be (47) expelled with (48) irresistible and (49) destructive (50) velocity.

The (51) precise (52) era of the (53) invention and (54) application of (55) gunpowder is (56) involved in (57) doubtful (58) traditions and (59) equivocal (60) language; yet we may (61) discern that it was (62) known (63) before the (64) middle of the (65) fourteenth (66) century; and that before the end of the (67) same, the (68) use of (69) artillery in (70) battles and (71) sieges, by (72) sea and land, was (73) familiar to the (74) states of (75) Germany, (76) Italy. (77) Spain, (78) France, and (79) England. The (80) priority of (81) nations is of (82) small (83) account; (84) none could (85) derive (86) any (87) exclusive (88) benefit from their (89) previous or (90) superior (91) knowledge; and in the (92) common (93) improvement, (94) they (95) stood on the same (96) level of (97) relative (98) power and (99) military (100) science.

THE REGENTS' QUESTIONS.

Examination XLIII (a), June 3, 1880.

(3:15-4:15 P. M.)

On the (1) twelfth of (2) November (3) seventeen (4) hundred and (5) ninety-two, (6) Christopher (7) Columbus (8) turned his (9) course to the east (10) south-east, to (11) follow (12) back the (13) direction of the (14) coast. This may be (15) considered (16) another (17) critical (18) change in his (19) voyage, (20) which had a (21) great (22) effect upon his (23) subsequent (24) discoveries. He had (25) proceeded (26) far (27) within what is (28) called the (29) old (30) channel, (31) between (32) Cuba and the (33) Bahamas. (34) Three or (35) four (36) days (37) later, he (38) would (39) have (40) discovered his (41) mistake in (42) supposing Cuba a (43) part of terra-firma; an (44) error in which he (45) continued to the (46) hour of his (47) death. He (48) might have had (49) intimation (50) also of the (51) vicinity of the (52) continent, and have (53) stood for the coast of (54) Florida, or have (55) been (56) carried (57) thither by the (58) gulf (59) stream, or, (60) continuing (61) along Cuba (62) where it (63) bends to the south-west might have (64) struck (65) over to the (66) opposite coast of (67) Yucatan, and have (68) realized his (69) most (70) sanguine (71) anticipations in (72) becoming the (73) discoverer of (74) Mexico. It (75) was (76) sufficient (77) glory for Columbus, (78) however, to have discovered a (79) new (80) world. (81) Its (82) more (83) golden (84) regions (85) were (86) reserved to (87) give (88) splendor to (89) succeeding (90) enterprises. * * * On the 5th of (91) December he (92) reached the (93).

eastern end of Cuba, which he supposed to be the eastern (94) extremity of (95) Asia: he (96) gave it (97) therefore, the name of (98) Alpha and (99) Omega, the (100) beginning and the end.

Examination, XLII (b), June 17, 1880.

(3:15-4:15 P. M.)

(1) New York, (2) one of the (3) thirteen (4) original (5) states of the (6) United States of (7) America, (8) now the (9) most (10) important in (11) population and (12) wealth, (13) occupies an (14) irregular (15) triangular (16) area from the (17) Atlantic (18) Ocean to the (19) great (20) lakes. The state is (21) four (22) hundred and (23) twelve (24) miles from (25) east to west, (26) three hundred and (27) eleven from north to (28) south, with an (29) area of (30) forty-seven (31) thousand (32) square miles, or (33) thirty (34) million (35) eight hundred thousand (36) acres; (37) bounded north by Lake (38) Erie, Lake (39) Ontario, the (40) river (41) St. Lawrence, and (42) Canada; east by Lake (43) Champlain, the states of (44) Vermont, (45) Massachusetts, and (46) Connecticut and by the Atlantic Ocean; south by the ocean, (47) New Jersey and (48) Pennsylvania; west by Pennsylvania, the (49) Niagara river, and the lakes (50) which (51) make (52) its irregular (53) north-western (54) boundary. The state has (55) sixty (56) counties. Its (57) chief (58) towns (59) are New York (60) city, (61) Albany, the (62) capital, (63)

The (75) centre is (76) beautified by (77) many (78) picturesque lakes, and (79) some (80) portions by fine (81) mountain (82) scenery. * * * The (83) soil, (84) particularly that of the western and (85) limestone (86) region, is (87) very (88) fertile, (89) producing the (90) finest (91) wheat, (92) maize, (93) apples, (94) peaches, etc., in (95) abundance. * * * The state (96) constitution was (97) adopted in 1777. In 1825, the (98) opening of the Erie Canal gave a great (99) impetus to the (100) prosperity of the state.

A DAY'S JOURNEY THROUGH OUR STATE.

To (1)show in (2)another (3)light (4)how (5)intelligence will (6)give us (7)pleasure in the (8)ordinary (9)course of our (10)lives, let us (11)compare the (12)experience of (13)different (14)persons (15)traveling (15)through our (17)own state, from its (18)western (19)borders to the (20)city of (21)New York. (22)Starting from the (23)great (24)cataract of (25)Niagara, (26)where (27)even the (28)most (29)ignorant will (30)feel the (31)grandeur of the (32)scene, the man with a (33)reasonable (34)knowledge of the state in (35)which he (36)lives, will (37)see (38)along the (39)whole (40)course of the (41)journey, (42)objects which

will (43) constantly (44) arrest his (45) attention, (46) recall (47) facts in (48) history or (49) science, and which will (50) engage his mind with (51) healthful and (52) instructive (53) thoughts. He will (54) notice at the (55) outset, (56) upon the (57) south, the (58) range of (59) highlands (60) reaching from Lake (61) Erie to the (62) flanks of the (63) Allegany (64) mountains. Its (65) elevation is not great, but in (66) many (67) ways it is the (68) most (69) remarkable (70) water-shed upon the (71) face of our (72) globe. When he (73) crosses the (74) Genesee (75) river, he sees its (76) current (77) hurrying to the north to (78) mingle with the (79) cold (80) water of the (81) Gulf of (82) St. Lawrence, and the (83) oceans which (84) cover the (85) arctic (86) regions, and he (87) knows that its (88) sources are (89) interlocked with (90) those of the Allegany, which find (91) their (92) outlet in the (93) tepid waters of the Gulf of (94) Mexico. A (95) little (96) farther on, the (97) springs which feed the branches of the (98) Susquehanna run down the southern (99) slopes of the (100) Chesapeake bay.—*Horatio Seymour.*

WASHINGTON AS PRESIDENT ELECT.

From the (1) moment it had (2) become (3) certain that the (4) constitution was to go into (5) effect, (6) Washington had been (7) very (8) warmly (9) pressed by (10) numerous (11) correspondents not to (12) decline that (13) position for which he was so well (14) qualified by the (15) choice and (16) confidence of the (17) whole (18) nation. The (19) general (20) ex-

pectation that he (21) would be (22) president had (23) contributed not a (24) little to (25) calm (26) excitement (27) against the new constitution, and to give its (28) friends a (29) decided (30) predominance in the choice of (31) members of the first (32) Congress.

Washington (33) desired to (34) proceed to New York (35) privately, but the (36) flow of (37) veneration and (38) gratitude could not be (39) suppressed. Having been (40) entertained by his (41) neighbors of (42) Alexandria, he was (43) welcomed to (44) Maryland by a (45) crowd of (46) citizens (47) assembled at (48) Georgetown. At the (49) frontier of (50) Pennsylvania he met by a large (51) escort, and a (52) magnificent (53) reception was given at (54) Philadelphia, where the State (55) officers, (56) trustees of the (57) university, officers of the (58) Cincinnati (59) society, and the (60) mayor and (61) common (62) council (63) waited on him with (64) their (65) congratulations.

The next day Washington (66) crossed into New (67) Jersey. The (68) people of (69) Trenton (70) remembered the (71) battles (72) fought in their (73) vicinity twelve (74) years before, and (75) nowhere was his reception more (76) graceful and (77) touching. On the (78) bridge (79) across the (80) stream which (81) flows (82) through the (83) town into the (84) Delaware, a (85) triumphal (86) arch had been (87) erected, (88) supported on (89) thirteen (90) pillars (91) trimmed with (92) evergreens, (93) flowers and (94) laurel. Here a (95) group of (96) matrons and young (97) misses (98) dressed in white, began, as he (99) approached, to sing an ode prepared for the (100) occasion.

Examination XLV, June 16, 1881.

(3:15 to 4:15 P. M.)

The (1)United (2)States are (3)situated in the north (4)temperate (5)zone, in the (6)central part of North (7)America, and (8)between the (9)same (10)parallels of (11)latitude as (12)southern (13)Europe, the (14)Mediterranean (15)sea, (16)northern (17)Africa, central (18)Asia, and (19)Japan.

This (20)country (21)possesses (22)nearly (23)evcry (24)variety of (25)climate, (26)owing to its (27)great (28)extent, its (29)position on the (30)globe, and (31)differences in (32)elevation.

The states (33)remarkable for (34)their (35)agricultural (36)products are (37)those in the (38)eastern (39)half of the (40)Union; (41)grain, (42)fruits, and (43)vegetables in the north, and (44)cotton, (45)tobacco, (46)rice, and (47)sugar in the south.

The (48)prairie land of (49)Ohio, (50)Indiana, (51)Illinois, (52)Michigan, (53)Iowa, (54)Missouri, (55)Arkansas, (56)Kansas, and (57)Nebraska, is remarkable for its (58)fertility.

The (59)principal (60)ports of (61)foreign (62)commerce are New York and (63)Boston in the north, New (64)Orleans in the south, and San (65)Francisco in the west; of inland commerce, are St. (66)Louis (67)Chicago, (68)Cincinnati, (69)Buffalo, (70)Cleveland, (71)Detroit, and (72)Milwaukee.

(73)Florida is remarkable for its (74)low, (75), marshy (76)surface, and its (77)tropical climate. It is a (78)celebrated (79)winter (80)resort for (81)invalids from the north. Its (82)forests are (83)exten-

The northern (89)boundary of New York is (90)exactly (91)midway between the (92)equator and the north (93)pole.

(94)Virginia is (95)mountainous in the west; its surface (96)slopes (97)toward the (98)Chesapeake (99)bay; its (100)valleys are noted for their fertility.
